

AJIREX™ NH

AJIREX™ NH is a natural high-peptide extract made by an advanced proprietary process from Torula yeast. This product is a flavour modulator and a “smart” enhancer. Smart, in the sense that it's not bound to a single function but responds accordingly in different applications. Foods that are lackluster in flavour take on fullness, and depth, while those that are unbalanced become rounder and more agreeable. It enlarges flavour by altering the mouthfeel to promote the sensation of substance – adding richness with no telltale flavour of its own.
